And

Are you interested in a career in the health industry?

## JOB DESCRIPTION

Careers in the health industry are many and varied. Some common career fields include: nursing, home health care, therapy and wellness, and so much more within the medical field.

## CONNECT TO POST SECONDARY

Through the Introduction to Health Science Course you have the potential to earn both high school and post-secondary credits. Not only is it recognized at KPU, but in many Post-Secondary Institutions across BC.

## COURSE CREDITS

- PSIJ 12 (4 credits)
- KPU Course - HSCI 1115: Introduction to Health Science (3 credits)

## PROGRAM LENGTH

- July to August
- Days TBA
- Exam following final course date

## COSTS

- Course tuition is paid by the Surrey school District
- Students may be required to purchase a textbook

## COURSE DESCRIPTION

Students will be introduced to the multifaceted field of health science and the foundations of promoting health and wellness. Students will explore concepts of health, science, and health science from a variety of perspectives including biological, clinical, cultural, environmental, political and socioeconomic. Students will be introduced to the variety of health care careers that contribute to the effective delivery of health care and the promotion of health and wellness in the community. Students will learn the benefits of well-organized, cross-functional teams in a generation of innovation, productivity and effective service.

Services provided through funding arrangements with the Surrey School District Career Education Department.
